WORK EXPERIENCE

Frontend Developer | SS&C   *Sept 2025 - Present*

Tech stack: Angular, TypeScript, RxJs
- Contributing to the development of an in-house platform with two user types (employee/employer). Responsible for building features, improving scalability, and enhancing a customer-facing CSM module that allows clients to configure their own application templates. Collaborating cross-functionally to deliver secure, compliant, and high-quality solutions.

Frontend Developer | Cognizant   *January 2023 – Sept 2025*

Tech stack: Angular, TypeScript, RxJs, Sass, Nexus, OpenShift, Jenkins, BitBucket, AG Grid, Jasmine
- Led architecture and development of two enterprise apps.
- Owned frontend delivery for an 11-flow modular fraud system with live dashboards, AG Grid-based tools and intelligent search.
- Acted as Lead Developer, handling architecture, deployments, legacy modernization, and occasional backend (Java) tasks.
- Stepped in as Team Lead, driving sprint planning, stakeholder alignment, and cross-team coordination.
- Directed UI/UX strategy in absence of designer, ensuring usability and consistency.
- Mentored teammates promoted best practices, and improved test coverage (Jasmine).

Frontend Developer | Deloitte Digital Romania   *Oct 2021 – Dec 2022*

Tech stack: React, Angular, TypeScript, RxJs, Thymeleaf, Mambu, AWS, Java, Sass
- Delivered and owned key features for internal banking and insurance platforms, including client onboarding, loan management, and policy creation/editing.
- Refactored critical flows and improved UX through close collaboration with designers and cross-functional teams.
- Developed PDF report generation, contributing to both frontend and Java backend code.
- Ensured continuous delivery by proactively fixing backend issues and coordinating frontend-backend efforts.

Frontend Developer | IBM Romania   *Dec 2018 – Oct 2021*

Tech stack: Angular, React, TypeScript, RxJs, Sass, Adobe Experience Manager, Ionic, Capacitor, GraphQL, Material UI, Jenkins, VirtualBox
- Delivered feature-rich web and mobile apps across e-commerce, retail, and compliance, implementing experimentation, UX improvements, and omnichannel checkout; optimized performance, accessibility, and offline support; built interactive UI features, compliance tools, and advanced search; managed builds, demos, and production issues while fostering client trust through onsite collaboration.

SUMMARY

Senior Frontend Developer with **6+ years of experience** building scalable **Angular** applications. I lead end-to-end developments from architecture to deployment.

EDUCATION
